

Instructions for Using the Bio Physics-Type Headpiece

To use the translation function ▶

Simply loosen the knob in front of the headpiece (as pictured right), push the cushion left or right to the desired position, then tighten the knob.*

To use the lateral function ▼

Locate the lever directly under the front of the headpiece and pull it toward you. With the lever engaged, pivot the headpiece from side to side to the desired location and release the lever to lock (see photos below).
